

# Naia™ Cellulose Diacetate

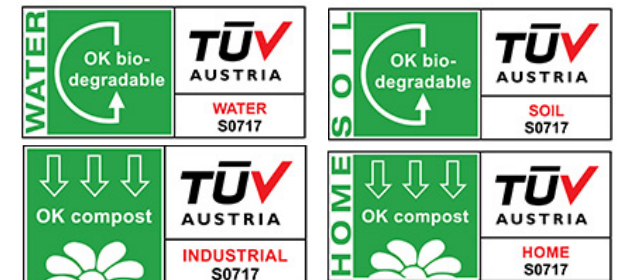

Naia is a cellulose manufactured with pulp from PEFC/FSC-certified wood through closed-loop performance management.

The production process has been certified according to Type I, OEKO-TEX® Standard 100 and passed the ZDHL certification to ensure no chemical substances restricted by ZDHC MRL.

In terms of sustainability, besides registering to the Higg MSI database with track score record, we have also passed the TÜV Austria certification for OK bio-degradable and OK compost for industrial/domestic composting and freshwater/soil degradation.

- Brilliantly dyed, always new after washing
- Anti-pilling
- Moist absorbent and quick drying
- Dirt-resistant and easy to care
- Good draping
- Low environmental impacts
