

Lenzing FR®  
THE HEAT PROTECTION FIBER

# Fire Resistant Fiber

Lenzing™ FR Modal has brilliant fire/heat resistant and anti-dripping properties. It is a fiber that provides both safety and comfort.

Lenzing™ FR Modal fiber helps to discharge body heat and absorb perspiration.

Great breathability; water vapor is released in extreme heat to lower body temperature, and to decrease the chance of a fatal heat stroke.

This fiber helps to maintain normal body temperature in extreme heat; fire fighters or people who work in extreme temperatures are able to function normally.

The LOI value of FR® Fiber is 28\*1.
