

Antibacterial Deodorizing Fiber-Nylon 66

Acteev[®]
FREE

Acteev[®]FREE derived from zinc oxide and Nylon 66, incorporate zinc ions into the nylon, effectively preventing bacteria growth and reducing odor.

Zinc

- A mineral needed for human health
- Targets the bacteria and microbes that cause odor

Nylon 66

- Soft and gentle on skin
- Light and strong
- Fast, moisture-wicking material

Long-lasting antimicrobial and odor-resistant

Acteev[®]FREE 's zinc ions are embedded into the product instead of coated on. Even after 100 washes, it's still as effective as day one.

Free from odor / Free from mildew / Free from silver

Free from harmful additives / Free from pilling, wear & tear
